

# Oakbank School

January 2021

Dear Parents and Carers,

Please find attached a number of documents to help you and your child start to think more closely about the choices for Key Stage 4.

The slide show included is for an assembly Mr Smith and I would normally present in the Hall and which you can find in the Year 9 Teams area.

You will also find the Options Brochure. In there is a timeline of the Options Process and details of all the courses we plan to offer.

At this stage it would help in the planning for September to get an early indication of students' preferences. Students should do this by completing the First Look Quiz, which can also be found in the Year 9 area on Teams, by 29th January. I have attached a copy of that Form that too, which should be emailed to me, if Teams is not cooperating.

Making the right KS4 choices is an important process. Please take the time to watch the presentation on Teams and to read through the brochure, before indicating what your choices would be now on the Forms Quiz.

This term we have reports from every subject, a Parents Evening and 1:1 interviews with a senior member of staff to help you through this process.

Kind regards

David Prendiville
